

Menlo Medical Clinic

## Sally Greenwald, MD MPH

*OB/GYN*

Dr. Sally Greenwald is passionate about empowering her patients with information, providing them with accessible and honest counsel, and encouraging them to value their health and be their best selves. Her areas of medical interest and specialty include partnering with adolescents to define a positive sense of reproductive health, preconception counseling, surgical management of benign gynecologic conditions, and supporting pregnancy as a natural process. She's excited to care for the women of the community that raised her.

Outside of work, she enjoys playing with her baby boy (Arnie), traveling with her husband (Dan), cooking, and hiking The Dish.

## About Menlo Medical Clinic

We are Menlo Park's neighborhood clinic offering exceptional service. We've grown with the city, expanding over the years to over 50 physicians covering 20 disciplines in two locations.

Menlo Medical Clinic partners with Stanford Health Care to give you the best health care possible: individualized and convenient with access to Stanford specialists and technology. At Stanford Health Care your health needs will be coordinated through MyHealth, our easy to use online tool. MyHealth will help you to manage your health care appointments, access your confidential medical records, and more. Together, we are providing a higher level of health care.
